

Park Primary School PE and Sport Premium

Our Physical Education lead and coach is Martin Szwaba. Park Primary School use the PE and Sport Premium to participate in the Cumberland Schools Partnership, invest in more specialist coaches and to continue to generally raise the standards of PE in the school.

A proportion of Park Primary's Sports Premium allocation of £20,410 for the 2017-18 Academic year has been used to fund specialist PE coaching. This coach works alongside all members of staff to raise the quality of teaching across the school. Park Primary School currently runs an intra-football league where the different houses compete against each other as well as participating in interschool competitions organised by Cumberland Sport Partnership. As part of the Cumberland Sports Partnership staff have access to training throughout the academic year and support for SEN inclusion.

Our Premium funding has also been allocated to promote and provide specialist coaches and teachers for our morning & after school clubs, increasing participation across the school. This extends to:

- PE lead supporting individual staff
- Sports leaders training for Year 5 children
- Play leaders training in KS1 &KS2
- Staff training opportunities for PE with all staff
- Access to additional resources for curriculum development
- Setting up school competitions
- Inclusive sport coaching
- SEND student support
- School sports club coaching
- Talented pupil identification and outreach

The Department for Education has provided all primary schools with additional funding to increase participation in sports. Schools receive PE funding based on the number of pupils in years 1 to 6 using data from the January school census. The funding is to make additional and sustainable improvements to the quality of PE and sport offered at Park Primary School.

According to government guidance; *this means that the Sports premium should be used to:*

- *develop or add to the PE and sport activities that the school already offers*
- *build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years*

There are 5 key indicators that schools should expect to see improvement across:

- *the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school*
- *the profile of PE and sport is raised across the school as a tool for whole-school improvement*
- *increased confidence, knowledge and skills of all staff in teaching PE and sport*
- *broader experience of a range of sports and activities offered to all pupils*
- *increased participation in competitive sport*
