HAPPY NEW YEAR

### Thought for the Week

### Current Affairs

An eight-year-old boy who reviews toys and shares the videos online has topped a list of the highest-earning YouTube stars after making £19.8 million! Ryan Kaji, from Ryan ToysReview, made the money between June 2018 and June 2019. It is the second year in a row that he has topped the magazine Forbes' list. Ryan's family launched his main channel in 2015 when he was just three and has gone on to have his own line of toys, toothbrushes and other

items. Ryan lives in Texas, USA with his parents and twin sisters.

Things to talk about at home...

- Have you ever watched any YouTube videos before? Have you seen any made by children?
- Do you think children should be allowed to make videos? Do you think there should be an age
- restriction for when videos can be created and shared publicly?
- Ryan was only three when he started sharing videos online! Do you find this surprising?
