Proposal: In Week 2 of each Half Term we will conduct an LW which will be discussed at SLT the week after.

This will be the same for MOTS so each phase will have an MOT per full term meaning that we will be undertaking MOT weeks for 4 weeks out of every long term and then we will do 2 LWs every half term. With the subject focus element, we will invite a subject leader to the first session per term and then we could look at the qualitative data relating to that subject in the other half term.
