

Park Primary School Policy

Ensuring every individual achieves their very best through high expectations for all: with a focus on aspiration, confidence, creativity and care.

Park Primary's Social Media Policy

Member of Staff Responsible	Ilona Patora
Position	Assistant Head Teacher
Dated (approved by the Governing Board)	November 2021
Date of next review	November 2022

Our School Vision

At Park Primary School we believe that learning should be challenging, creative and fun. We all work hard to ensure that our school is a safe and happy place. We are a school where difference is celebrated and everyone is given the opportunity to shine.

Our School Aims To:

- Strive for excellence in all that we do.
- Provide a curriculum that is rich and varied, where academic achievement and achievement in creative arts are equally celebrated.
- Recognise every child's individual talents and needs.
- Encourage a love for learning where each child is given opportunities to be the best that they can be.
- Work in partnership with parents and carers and others.
- Promote a school ethos where each child feels valued, respected and proud of themselves, their school and their local community.

Our school recognises and embraces the numerous benefits and opportunities that social media offers. While employees are encouraged to engage, collaborate and innovate through social media, they should also be aware that there are some associated risks, especially around issues of safeguarding, bullying and personal reputation.

Aims of our Social Media Policy

- The purpose of this policy is to encourage good practice, to protect the school and its employees, and to promote the effective use of social media as part of the school activities.
- This policy covers personal and professional use of social media and aims to encourage its safe use by the school and its employees.
- The policy applies regardless of whether the social media is accessed using the school's IT facilities and equipment, or equipment belonging to members of staff.
- This policy covers the use of personal communications via social media accounts that are likely to have a negative impact on professional standards or the school's reputation
- This policy covers all individuals working at all levels and grades, including full-time and part-time employees, fixed-term employees and agency workers.

Overview and Expectations

All adults working with children have a responsibility to maintain public confidence in their ability to safeguard the welfare and best interests of children. It is therefore expected that they will adopt high standards of personal conduct in order to maintain the confidence and respect of their colleagues, children, public in general and all those with whom they work. Adults in contact with children should therefore understand and be aware that safe practice also involves using judgement and integrity about behaviours in places other than the work setting. The guidance contained in this policy is an attempt to identify what behaviours are expected of the school's staff who work with children. Anyone whose practice deviates from this document and/or their professional or employment-related code of conduct may bring into question their suitability to work with children and young people and may result in disciplinary action being taken against them. School staff should always maintain appropriate professional boundaries and avoid behaviour, during their use of the internet and other communication technologies, which might be misinterpreted by others. They should report and record any incident with this potential.

Code of Conduct: Social Networking

Under no circumstances should staff make reference to any staff member, pupil, parent or school activity/event.

The following are also not considered acceptable at Park Primary School:

- The use of the school's name, logo, or any other published material without prior permission from the Head Teacher. This applies to any published material including the internet or written documentation.
- The posting of any communication or images which links the school to any form of illegal conduct or which may damage the reputation of the school. This includes defamatory comments.
- The disclosure of confidential or business-sensitive information; or the disclosure of information or images that could compromise the security of the school.
- The posting of any images of employees, children, governors or anyone directly connected with the school whilst engaged in school activities.

In addition to the above, everyone at Park Primary School must ensure that they:

- Communicate with children and parents in an open and transparent way using the school phone number and email address.
- Never 'friend' a pupil at the school where they are working onto their social networking site.
- Do not make any derogatory, defamatory, rude, threatening or inappropriate comments about the school, or anyone at or connected with the school.
- Use social networking sites responsibly and ensure that neither their personal nor professional reputation, nor the school's reputation is compromised by inappropriate postings.
- Are aware of the potential of online identity fraud and to be cautious when giving out personal information about themselves which may compromise their personal safety and security.
- Make sure that high levels of privacy are set if they choose to use social media.
- Inform parents and carers that mobile phones must not be used on the premises by them (parents and carers).

Potential and Actual Breaches of the Code of Conduct

In instances where there has been a breach of the above Code of Conduct, the following will apply:

- Any breaches of this policy will be fully investigated. Where it is found that there has been a breach of the policy, this may result in action being taken under the Disciplinary Procedure.
- A breach of this policy will be considered to be a serious disciplinary offence which is also contrary to the school's ethos and principles.
- The Governing Board will take appropriate action in order to protect the school's reputation and that of its staff, parents, governors, children and anyone else directly linked to the school.

Whilst every attempt has been made to cover a wide range of situations, it is recognised that this policy cannot cover all eventualities. There may be times when professional judgements are made in situations not covered by this document, or which directly contravene the standards outlined in this document. It is expected that in these circumstances staff will always advise the Head Teacher or Designated Safeguarding Lead of the justification for any such action already taken or proposed. The

Head Teacher or Designated Safeguarding Lead will in turn seek advice from Human Resources where appropriate. This policy takes account of employment legislation and best practice guidelines in relation to social networking in addition to the legal obligations of governing bodies and the relevant legislation.

Safer Online Behaviour

Some social networking sites and other web-based sites have fields in the user profile for job title etc. **If you are an employee of a school and particularly if you are a teacher, you should not put any information onto the site that could identify either your profession or the school where you work. In some circumstances this could damage the reputation of the school, the profession or the local authority.**

In their own interests, staff need to be aware of the dangers of putting personal information onto social networking sites, such as addresses, home and mobile phone numbers. This will avoid the potential for children or their families or friends having access to staff outside of the school environment. It also reduces the potential for identity theft by third parties. All staff, particularly new staff, should review their social networking sites when they join the school to ensure that information available publicly about them is accurate and appropriate. This includes any photographs that may cause embarrassment to themselves and the school if they are published outside of the site.

Employees need to ensure that when they are communicating about others, even outside of work, that they give due regard to the potential for defamation of character. Making allegations on social networking sites (even in their own time and in their own homes) about other employees, children or other individuals connected with the school, or another school or London Borough of Newham could result in formal action being taken against them. This includes the uploading of photographs which might put the school into disrepute.

Mobile Phones/Camera/Video Recorder Usage

To ensure the safety and welfare of children in our care, personal mobile phones, cameras and video recorders must not be used when children are present.

- All mobile phones must be kept in a secure place (not in a pocket), switched off and not be accessed throughout contact time with the children.
- In exceptional circumstances, which have been discussed and agreed with a member of the leadership team, staff may keep their phone switched on and accessible as long as they use their phone out of view of children, i.e. in a room designated for staff, e.g. the staff room, an office or the PPA room.
- During school visits mobile phones should be used away from the children and for emergency purposes only.
- Photographs or images of any children within our care may only be taken following parental

consent and only using one of the school cameras / i-pads/ mobile phones. These images should remain within this setting or be shared only with the parents of the child concerned.

- Personal mobiles, cameras or video recorders cannot be used to record classroom activities. ONLY school property can be used for this.
- School photographs and recordings can only be transferred to, and stored on a school computer/ Park's Google Drive.

Protection of Personal Information

Staff should not give their personal e-mail addresses to children or parents. Where there is a need for communication to be sent electronically the school e-mail address should be used. Likewise staff should keep their personal phone numbers private and not use their own mobile phones to contact children or parents in a professional capacity. There will be occasions when there are social contacts between children and staff, where for example the parent and teacher are part of the same social circle or members of the same community. These contacts however, will be easily recognised and openly acknowledged. Staff have a responsibility to make any such contact known to the senior leadership team.

Staff should never share their work log-ins or passwords with other people. Staff are advised to understand who is allowed to view the content on their pages of the sites they use and how to restrict access to certain groups of people.

Access to Inappropriate Images and Internet Usage

There are no circumstances that will justify adults possessing indecent images of children. Staff who access and possess links to such websites will be viewed as a significant and potential threat to children. Accessing, making and storing indecent images of children are illegal. This will lead to criminal investigation and the individual being barred from working with children, if proven. Staff should not use equipment belonging to their school/service to access any pornography; neither should personal equipment containing these images or links to them be brought into the workplace. This will raise serious concerns about the suitability of the adult to continue to work with children.

Where indecent images of children are found by staff, the police should be immediately informed. Schools should not attempt to investigate the matter or evaluate the material themselves, as this may lead to evidence being contaminated which in itself can lead to a criminal prosecution.

Where other unsuitable material is found, which may not be illegal but which raises concerns about that member of staff, the Head Teacher (and in the Head's absence, a member of the SLT) should be informed and that person will seek advice from Human resources. The school will not attempt to investigate or evaluate the material themselves until such advice is received.

Cyber-bullying

Park Primary's definition of cyber-bullying is 'the use of modern communication technologies to embarrass, humiliate, threaten or intimidate an individual in the attempt to gain power and control over them.' In order to reduce the potential for cyber-bullying, children are generally not allowed

to bring phones into school. The only exception is made for Year 6 pupils who have permission to 'walk home alone'. In this situation, those pupils are allowed to bring a mobile phone to school, however they must hand it to their class teacher when they come into school in the morning and the mobile phone must be kept in a lockable cupboard/ drawer until home-time. If a mobile phone is brought into school by a younger child it must be kept in the main office or handed to the class teacher until home-time and parents should be made aware.

Prevention activities are key to ensuring that staff are protected from the potential threat of cyber-bullying. All employees are reminded of the need to protect themselves from the potential threat of cyber-bullying. Following the advice contained in this guidance should reduce the risk of personal information falling into the wrong hands. If cyber-bullying does take place, employees should keep records of the abuse, text, e-mail, website or instant message and should not delete texts or e-mails. Employees are advised to take screen prints of messages or web pages and be careful to record the time, date and place of the site. Staff are encouraged to report all incidents of cyber-bullying to their line manager or the Head Teacher. All such incidents will be taken seriously and will be dealt with in consideration of the wishes of the person who has reported the incident. It is for the individual who is being bullied to decide whether they wish to report the actions to the police.

Link with Other Policies

This policy should be read in conjunction with the following school policies:

Staff Code of Conduct,

IT and Online safety policies,

Public Sector Equality Duty

Park, Safeguarding (Child Protection) Policy

Whistleblowing Policy

All employees must adhere to, and apply the principles of the policy in all aspects of their work. Failure to do so may lead to action being taken under the disciplinary procedure.

Review of Policy

Due to the ever changing nature of information and communication technologies it is best practice that this policy be reviewed annually.
